

Bookeye<sup>®</sup>

GS400 Copy

The **Bookeye® GS400 Copy** was designed for all those locations in libraries and archives where users quickly need top quality copies. The copier processes books, files, documents, bound materials and newspapers in a comfortable way up to an A2 format in a protective head up procedure.

The **GS400 Copy** is a real alternative to conventional copy systems as well as a supplement to your digital copiers. You save the bookbinding costs, arising from pressing the books onto the glass plate of classic copiers!

Whether HP, Lexmark, Kyocera or Canon, **Bookeye® GS400 Copy** transforms every laser printer into a copier. It is equipped with a network interface, adapting to every postscript-able printer and digital copier.

**The advantage for you:** Quality saves you costs!

## Overview of functions

- Format selection up to A2
- 35 million Pixel resolution per color channel
- Automatic format recognition
- Autofocus
- Automatic page separation
